The Mission of The San Diego LGBT Community Center is to enhance and sustain the health and well-being of the lesbian, gay, bisexual, transgender, and HIV communities by providing activities, programs, and services that:

- Create community
- Empower community members
- Provide essential resources
- Advocate for civil and human rights
- Embrace, promote, and support our cultural diversity
The San Diego Lesbian, Gay, Bisexual, and Transgender Community Center, Inc., (d.b.a., The Center) is one of the largest and most vibrant LGBT community centers in the nation. Functioning as the San Diego LGBT community’s anchor organization, The Center is led by a 11-member board of directors, employs more than 70 paid staff and utilizes more than 1,200 community volunteers to achieve its twin goals of promoting LGBT health/wellness and human rights. The Center provides targeted programs and services to the full diversity of the San Diego LGBT community, including men, women, youth, seniors, transgender and non-binary individuals, families, LGBT Latin@ community members and their families, and those living with HIV. Last year, The Center provided more than 84,600 direct service visits to San Diego community members, and through its events, activities and advocacy, touched the lives of thousands more.
As Co-Chairs of The San Diego LGBT Community Center’s Board of Directors, we want to thank you for your involvement, support, and advocacy. This past year has seen many milestones and phenomenal moments of growth.

We’ve been extremely proud of the tremendous leadership and cutting-edge work that our Center did this past year, when our community needed it the most. We provided life-sustaining humanitarian relief to LGBTQ asylum seekers and their families at the border, opened the South Bay Youth Center, stood with our transgender and nonbinary community, and expanded housing opportunities for those most vulnerable who are experiencing homelessness.

We’ve also increased our budget by a million dollars annually, our service visits to more than 84,600 annually, and our staff stands at 70. As we continue to grow, we want to do so intentionally, strategically, and thoughtfully.

Throughout our history, our community has strengthened The Center by its desires and demands for what the organization can, should, and will be. This moment is no different. We do our best not only to listen, but to respond. That is the reason that our CEO Caroline (Cara) Dessert and our Board of Directors decided it was an important time to engage in a strategic planning process.

The Center is embarking in a comprehensive strategic planning process to help guide it into the future. We have invited and involved the community in this effort with surveys, town halls, and stakeholder interviews.

We are excited to continue to build upon the incredible work of The Center, and to make sure that work remains impactful. Thank you, as always, for your support of Our Center, and we can’t wait to build a brighter future for our LGBTQ community.

A MESSAGE FROM THE CEO

Gratitude, Excitement, and Commitment

It’s incredible to believe it has been a year since I received one of the most incredible honors of my life, to have been chosen to serve as The Center’s CEO.

We have accomplished a lot over this past year at The Center and, with the community’s support, have helped create a year of incredible opportunities and growth.

We opened our newest service location, the South Bay Youth Center. It’s clear from the overwhelming response we’ve received from the community that we are making a difference in the lives of youth and their families in the South County, doubling our service numbers month over month.

We have expanded our housing opportunities for those experiencing homelessness, tripling the number of people we can shelter every night. We have a host home program, emergency housing programs, including a hotel voucher program and a four-bed shelter three nights per week. The Center is the first organization to offer an LGBTQ-focused emergency emergency overnight housing program and host home program in San Diego County. Additionally, we implemented a family reunification program for LGBTQ youth experiencing housing instability or homelessness.

We embarked on the first LGBTQ border campaign in history, partnering with RAICES, Al Otra Lado Border Rights Project, and the Los Angeles LGBT Center to ensure that legal services, case management, and humanitarian relief to LGBTQ and asylum seekers living with HIV were provided to those who made it to the Mexican/U.S. border. None of our agencies had ever done a cross-border campaign like this before, but we all knew the need was critical, we had the courage to try, and we were all committed to working together.

It’s not just immigrants, but also our transgender and nonbinary community that have been relentlessly attacked this year by the current Administration. At every turn, when these community members have been attacked, The Center has responded in a way that supports and develops long-term leadership and capacity in the transgender and nonbinary community.

While The Center has continued its vital work, we are also in a period of tremendous growth. We are providing more service visits than ever before, we’ve increased our budget by a million dollars annually, and the staff has grown to more than 70. This remains a time of organizational transition and, to that end, we have been engaged in a strategic planning process with significant community engagement to create the future that reflects the community we serve.

As we face real and unexpected challenges, we continue to respond with compassion and the highest levels of service. On behalf of all of us at The Center, I thank you for the incredible support of this community that makes all of this possible. We will take the support and trust you’ve placed in us and continue building upon our legacy of service and commitment to a San Diego where LGBTQ people and our families are connected, healthy, and thriving.

Sincerely,

Caroline (Cara) Dessert, Esq.

The Center offers the **Determine Rapid HIV-1/2 Ab-Ag** test for the simultaneous detection of the HIV-1 p24 antigen as well as antibodies to both HIV-1 and HIV-2. Detection of the HIV-1 antigen permits earlier detection of HIV-1 infection (two to four weeks) than is possible by testing for HIV-1 antibodies alone (up to twelve weeks.) Along with the Determine test, The Center also offers the **UCSD Early Test** research study. Enrollment in the Early Test study includes a specialized viral load test that can detect acute (very early stage) HIV infection as soon as one week after potential exposure. **Hepatitis C (HCV) Rapid Antibody** screening is also offered. Both scheduled and walk-in Rapid Testing is available Monday through Friday 9am to 8pm, and Saturday 10am to 3pm. Early Testing is available Monday through Friday only and appointments are preferred. **For more information, or to schedule an appointment, call 619.692.2077 x101 or visit www.thecentersd.org/programs/bethegeneration.**

“*I want to let people know that it is ok to like, enjoy, and have sex. I want to talk to people about having sex their way, using their boundaries so everyone feels respected, safe, healthy, and consensual. I also want to help dispel the myth that many members of the community may have by default that people who are living with HIV will end up alone. There are plenty of wonderful, attractive people who have HIV and they do not end up alone.*”

“When I first learned about PrEP, I thought about getting on it, but I heard so many guys say “that’s only for sluts” that I was afraid of the stigma and the way people might try to shame me if they knew I was on PrEP. Luckily, I eventually got past that and made the appointment with my doctor. I’ve now been on PrEP for over a year. Sure, I got called a “slut” a couple of times, but I know that I am the one who has empowered myself to take care of my own health. Making the appointment to see my doctor about PrEP, and then deciding to start taking it, was one of the best decisions I’ve made in my entire life.”

“Before me, there were entire generations of men, women and children around the world whose lives slowly deteriorated due to HIV. There were thousands of people who participated in research projects and gave themselves as test subjects to finding a cure. These efforts all culminated in the current state of affairs that allow people like me to live a fairly normal, symptom-free life and flourish. Until science finds, develops and provides a cure for HIV, the next best thing is for me, and those like me, who are living a long happy life, to continue to educate and enlighten others about this virus. Prevention through education is key.”

---

In FY2019, we identified 12 individuals who were newly diagnosed with HIV. 83% of those newly diagnosed were linked to care. As of today, 92% of those linked to care successfully remain in care.
